Please do read on the website "How Covid 19 has changed Mass - FAQ".

TRACK AND TRACE IN CHURCHES

In line with the latest government guidelines, we are now asking anyone coming to church for Mass to sign in when they arrive. We are required by law to keep details (name and contact telephone number) of everyone that comes to Mass. You will have had to do this when visiting many restaurants, pubs etc.

How will it work?

A steward will welcome you as you come into church and ask you for your name (first or last and a contact telephone number). If there are more than one of you from one household attending, we only need the details of one member of the household. This information will be kept for just 3 weeks in the safe within the office and then will be destroyed.

Alternatively, if you have downloaded the NHS Covid-19 app, you can scan the QR code outside church. There is no need to give the steward your details too. The purpose of the NHS App is to alert people when they have been in close contact with someone who has tested positive for COVID-19 – and, if necessary, ask them to self-isolate.

The government is encouraging businesses and organisations (including places of worship) to display official NHS QR code posters at their venue entrances to help support contact tracing. In light of this, we are now displaying QR Scan posters at the entrance to both our parish churches. We would like to encourage people who have downloaded the COVID-19 App, to scan the QR code on their way into church.

Please note signing up for the app is your choice and not compulsory.

Also, as we are now recording who is at each Mass you no longer need to bring your details written down as we had originally requested. You can now either use the app or we can record you at Mass manually.

Many thanks to those parishioners who did this for many weeks.

The information below may be helpful if you are concerned about using the NHS app

What data the app uses

The app has been designed to use as little personal data and information as possible. All the data that could directly identify you is held on your phone, is not stored centrally and is not shared anywhere else. Any data that is provided from the phone will always be anonymised or aggregated, to prevent us and anyone else from identifying you or others.

Your personal data

'Personal Data' is a term defined in law.

The following types of data are considered 'personal data' when they are on your phone, because they are being stored on a phone that is registered to you personally:

- the postcode district you provide when you install the app
- the symptom information you enter onto the app
- the QR codes of the venues that you scan into the app
- the 2 types of codes described above, which are generated every day and every 15 minutes respectively for contact tracing purposes

The app has been designed to ensure that before any of this data moves out of your phone, for example into the DHSC secure computing infrastructure (see below), there is no way of telling that it came from your phone or that it relates to you.

If you request a test code and obtain a test result, this information will be personal data both when it is on your phone and when held within the central DHSC systems. DHSC has established strict controls of security, access and systems to monitor and restrict who can have access to this information and prevent anyone from being able to identify you.

The status of your data

The data held on your app is considered personal data but is only accessible to you.

Data within the app's analytical data set has all direct identifiers removed and we aim to make your use of the app anonymous. As noted above, the IP address is removed and is not retained. The data items within the data set are a summary or count apart from Postcode District, Test results and the technical details.

The analytical data set supports all of the purposes outlined within this privacy notice with some data items supporting technical evaluation, others public health and many both.

Stewards are still needed to ensure we can open for private prayer or weekday and weekend Masses. If you would like to volunteer, **and you are under 70, are not pregnant and do not have any underlying health conditions** then please contact Fr Paul or Deacon Jim or the office. Thank you again to parishioners who are currently or have been stewarding.

We really do need your help!!!

FOODBANK - Food items we are currently high-lighting a priority for:

Instant mash or tinned potatoes

Tinned cooked meats, corned beef or ham

Tinned meats such as stews, steak or hotpots

Pasta sauce, tinned vegetables

Cup-a-soup, Small bottles of cordial / UHT juice

Foodbank try to keep the "Most Needed Items" list on our website as up to date as possible so that you can consider including them.

I have been advised that they need are short currently of tinned mashed potato. They have plenty of rice, pasta and beans. With some churches collecting for Harvest Festivals this is having a knock on effect for the Foodbank.

Update - As you have read over the last few weeks Foodbank have had a few problems with collecting our food. However, they were able to come at last this Thursday and should be here now every week. Thank you again for your donations.

Health and Safety

When you next arrive at church, do take a look at the field behind the car park. You should see the fire assembly point which has now been put in place. Here are a couple of pictures.

A parishioner found this prayer on a small leaflet from the Mill Hill Fathers and thought it would be lovely to include in our newsletter as a response to Bishop Mark's request.

Dear St Joseph

You have shown love and care to the Son of God,

You looked after his mother Mary,

You worked hard for your family,

You led your family to safety,

You never questioned the will of God,

You dedicated your life to the service of God.

May we also show our dedication to the God's Son. May we honour Mary, our Holy Mother, may we work hard for our families and communities and may we strive for justice and peace as Kingdom builders in this world.

In Jesus' name. Amen.

Children's Sunday Liturgy Page. Parents, please feel free to print off the page below for your children to colour and complete!

Today is a very special liturgy for us. This weekend we are celebrating our Family Fast Day. A special day when we do what we can to help our brothers and sisters around the world. Especially those who do not have enough to eat.

In today's liturgy we will hear a story about a king who invites lots of different people to the wedding of his son. They have a big feast with lots of yummy food. Let's also think a bit about food, the harvest and what God invites us to do in our lives today.
